

Virginia Clean Cities and the National Biodiesel Foundation present...

Biodiesel Fuel Quality Seminar

Friday, November 2, 2007

Special Seminar of the Green Living and Energy Expo

Roanoke Civic Center, Roanoke VA

Expo Website: <http://www.aecp.org/Expo/overview.shtml> (registration instructions below)

Agenda

Target audience: biodiesel producers, petroleum marketers, fuel regulators, & fleet managers

12:30 – 12:45	Welcome & Introduction to Biodiesel Production in Virginia	Allen French, Chesapeake Custom Chemical
12:45 – 1:00	New Fuel Impacts: As we transition to a variety of new fuels that are developed to deliver positive economic, human health, environmental and national security impacts, there are some potential issues that once understood, can be minimized.	Ed Kitchen, Fuel Management Services, Inc.
1:00 – 1:30	Biodiesel Preparedness: adding biodiesel to your product line, preparing for the transition to biodiesel, fuel sampling techniques, how to prepare customers for the transition to biodiesel	Chad Freckmann, Blue Ridge Clean Fuels
1:30 – 2:00	Fuel Management and Housekeeping: basic properties and blending considerations for biodiesel, blending techniques, cold weather considerations, storing biodiesel blends, fuel quality assurance, biodiesel tax credit and funding opportunities.	Al Christopher, Virginia Clean Cities
2:00 – 2:15	BREAK	
2:15 – 2:45	ASTM & Quality Control: There are many quality control programs that can be used to produce and maintain ASTM specified fuel. We will discuss some of these programs.	Chelsea Jenkins, Virginia Clean Cities
2:45 – 3:00	Q & A	

This event is FREE!
